Awards

Other Info: The village appellation represents the bulk of the holdings of the domaine ... more or less seven hectares of vineyards spread across several parcels principally located in the northern reaches of the village of Nuits Saint Georges on a combination of silt, sand and gravel soils which produce a classic version of the appellation. The average age of the vineyards that compose this cuvee is 45 years.

Using 15% new oak this wine is kept in barrels for 2 years prior to bottling allowing for the wines flavours to integrate well together

resulting in a complex well balanced wine.
