

will be opening in Cirencester in May and then Ted feels it is time to consolidate for a while. However he doesn't find it very easy to stay still and despite the difficult market at present, I cannot see him resting on his laurels for too long.

Ted is married to Sue and they have three boys (Chris 26, Wills 22 and George 19). All are good all round sportsmen, especially cricket and rugby and Chris has had a couple of first class matches to his name as well as opening for Oxfordshire. Ted has regularly played cricket with them all but is especially proud of the fact that as soon as George reached the legal age of 18 they also played in the same rugby XV ! He is

Chairman of his local Cricket Club and also still involved in local rugby but complains that everything is creaking these days!

Ted has a cottage in Beer so still wanders round Allhallows with happy memories although is sad to see the place looking and feeling so much of a ghost town. He argues that the cricket ground should have been retained to maintain the village character that the planners seemed to want to create. If they had done so, who knows, either Chris, Will or George might well have made centuries on their father's old stamping ground, just as he did!
