Food / cocktail match: This wine will work well with red meat dishes, particularly when they are accompanied by a little fruit. Think lamb with redcurrant, duck with plum, or whatever else takes your fancy!

Other Info: This ancient estate has been in the same family hands since the 15th Century. The small vineyard lies on high ground overlooking the old town of Silves. A compact winery adjoins the old estate house, and wines here are increasingly expressive and look set to be the benchmark for the region.
